Chuck Davis is the senior partner of the San Francisco architecture firm, EHDD. Among his many projects are the restoration of History Corner on Stanford Quad and the Monterey Bay Aquarium for clients David and Lucile Packard. EHDD is now recognized for its expertise in aquarium design and Chuck has designed aquariums all around the world. EHDD is also known for its expertise in sustainable design with the latest example being the new Packard Foundation building now under construction in downtown Los Altos.

Steve Glenn is an entrepreneur committed to social change through both for-profit and non-profit organizations. He is currently the founder and CEO of LivingHomes, a developer and builder of modern, prefabricated homes, designed by world-class architects such as Ray Kappe, FAIA, and KieranTimberlake. The first LivingHome, designed by Kappe and assembled in eight hours was the first home ever to be certified LEED Platinum. Eight other LivingHomes have been certified Platinum since. LivingHomes recently completed a prefab triplex in Los Altos on Lassen Street which is expected to be certified LEED Platinum.

Goody Steinberg (1922-2010) was a long time resident of Los Altos Hills and designer of the Los Altos Chamber of Commerce, Los Altos History Museum, and the Tech Museum in San Jose. Goody established the Steinberg Group in 1953. Over his 50-year career, Goody designed hundreds of buildings, including homes, corporate campuses and houses of worship, most notably Congregation Beth Am in Los Altos Hills and Temple Isaiah in Lafayette. Goody's son, Rob Steinberg, principal of Steinberg Architects, will talk about his father's legacy.

Craig W. Hartman, FAIA, is the Design Partner for SOM San Francisco. His work ranges from entire urban districts to singular works of architecture, addressing issues of contemporary place and time, the poetics of light, and the sustainability of urban and natural ecologies. His work has been recognized with over 100 interdisciplinary design awards, which, in addition to 8 national AIA Honor Awards for Architecture, Interior Design and Urban Design, includes California's Maybeck Award for an individual oeuvre, of which he is the youngest recipient.

Ray Kappe is a well published, internationally recognized architect, urban planner and educator. His work is considered to be an extension of the early Southern California modern masters: Wright, Schindler, Neutra and Harris. Among the many design and lifetime achievement awards he has received are the AIA/Los Angeles Gold Medal and the AIA/California Council Maybeck Award. National AIA and the Association of Collegiate Schools of Architecture have honored him with the Topaz Medalian for having founded and directed the Southern California Institute of Architecture SCI-ARC.
